

Rob Reynolds

Rob Reynolds is a Certified Bio-Forensic Restoration Specialist[®] and a Certified Forensic Operator[®]. He is the co-founder of BioSheen of Texas and the director of operations for Stanley Restoration LLC. Prior to joining the forensic restoration industry, Reynolds earned a B.S. from the University of Kansas. He started in the restoration and cleaning industry in 1999. Wanting to learn all aspects of specialized restoration and cleaning, Reynolds gained valuable structure and personal protective equipment (PPE) field experience as a mold remediation field tech and mold remediation supervisor. His interests with forensic restoration developed and he eventually teamed up with Jeff and Lori Jones to co-found BioSheen of Texas. Reynolds has served on Restoration Industry Association's (RIA) contents council forensics sub-committee of the RIA's environmental council.
